Dear Madam or Sir:

I am in receipt of the postcard with this settlement proposal and want to be excluded.

Class action lawsuits are nothing more than a con job by parasitic attorneys; they pay a couple of dollars to unwitting plaintiffs and millions to lawyers. My permission should be needed to "opt in" instead of automatically including me without my permission and making money off me if I don't "opt out", miss the deadline or didn't receive the postcard. I don't want any part of the scheme.

I hope by opting out I can lessen their unearned, undeserved multi-million dollar payday.
